Cruising Television Arrives At Sunshine Cruise
28/04/2009 17:56:06
Tenerife's popular Sunshine Cruise has become the latest holiday cruise to feature its own television service following the launch of Cruising Television. Guests at Sunshine Cruise can enjoy music-led entertainment and keep up to date with events in and around Sunshine Cruise via the cruise's customised television channels available in room and on big screens around the ship.

LIBRARY INFORMATION

This area contains all the custom video and audio content available for broadcast in your resort.

You can use the drop-down menu to filter how you wish to view a list of your content;

ALL MESSAGES:

This view displays every video and audio message available for broadcast in your resort, regardless of status.

UNASSIGNED MESSAGES:

This view displays those messages which are available for broadcast but not currently scheduled to play on any of your channels.

VIDEO CHANNEL 1:

This view displays those messages which are currently in active rotation on Video Channel 1

VIDEO CHANNEL 2:

This view displays those messages which are currently in active rotation on Video Channel 2

AUDIO ONLY CHANNEL:

This view displays those messages which are currently in active rotation on your audio channel.

Using any of the above filters, you can choose from the following options to further examine an individual message;

CREATED ON:

Shows the date on which the message was created

TITLE:

Shows the title of the message

MEDIA:

Shows the message format: AUDIO, VIDEO or AUDIO+VIDEO

VIEW:

If the message has a voice-over script you can view it as a word doc

PLAY:

Plays the message

DOWNLOAD:

Allows you to download and save the message file

This is the library of audio and video message content available for broadcast on your cruise.

CHANNELS INFORMATION

This area contains detailed information on the different channels available within your resort.

First, select a channel from the drop-down menu.

Each channel is summarised as follows;

COVERAGE:

Shows where in your resort the channel may be accessed

MUSIC POSITION:

Details the type of music played on the channel

PROFILE:

Indicates the audience at which the channel is directed

SAMPLE HOUR:

Plays an example montage of songs played on the channel in a typical hour

MESSAGE PLACEMENT:

Indicates how frequently your audio/video messages are played on the channel

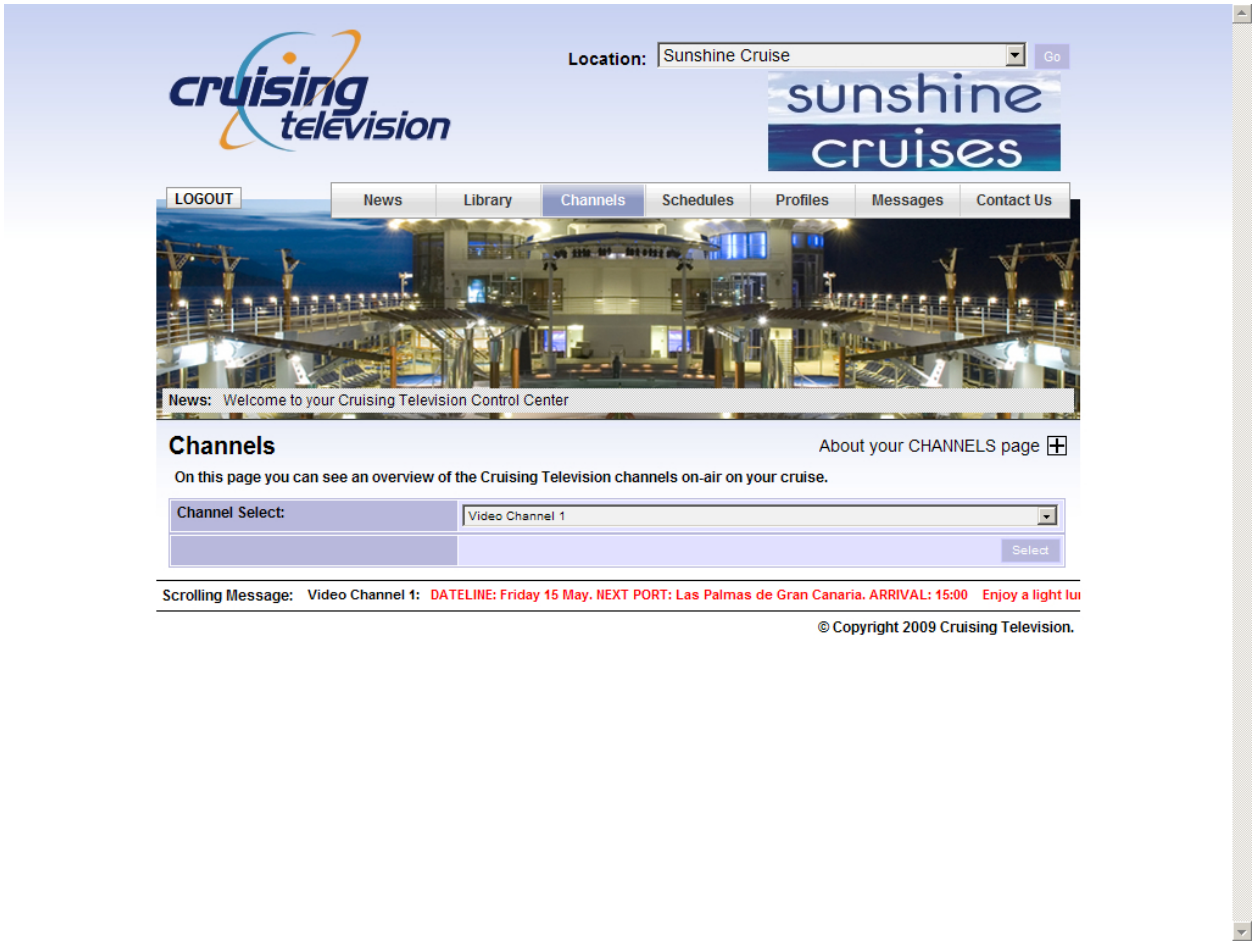
VIEW MESSAGE SCHEDULE:

Downloads a spreadsheet listing the placement of your audio/video messages

On this page you can see an overview of the Cruising Television channels on-air on your cruise.

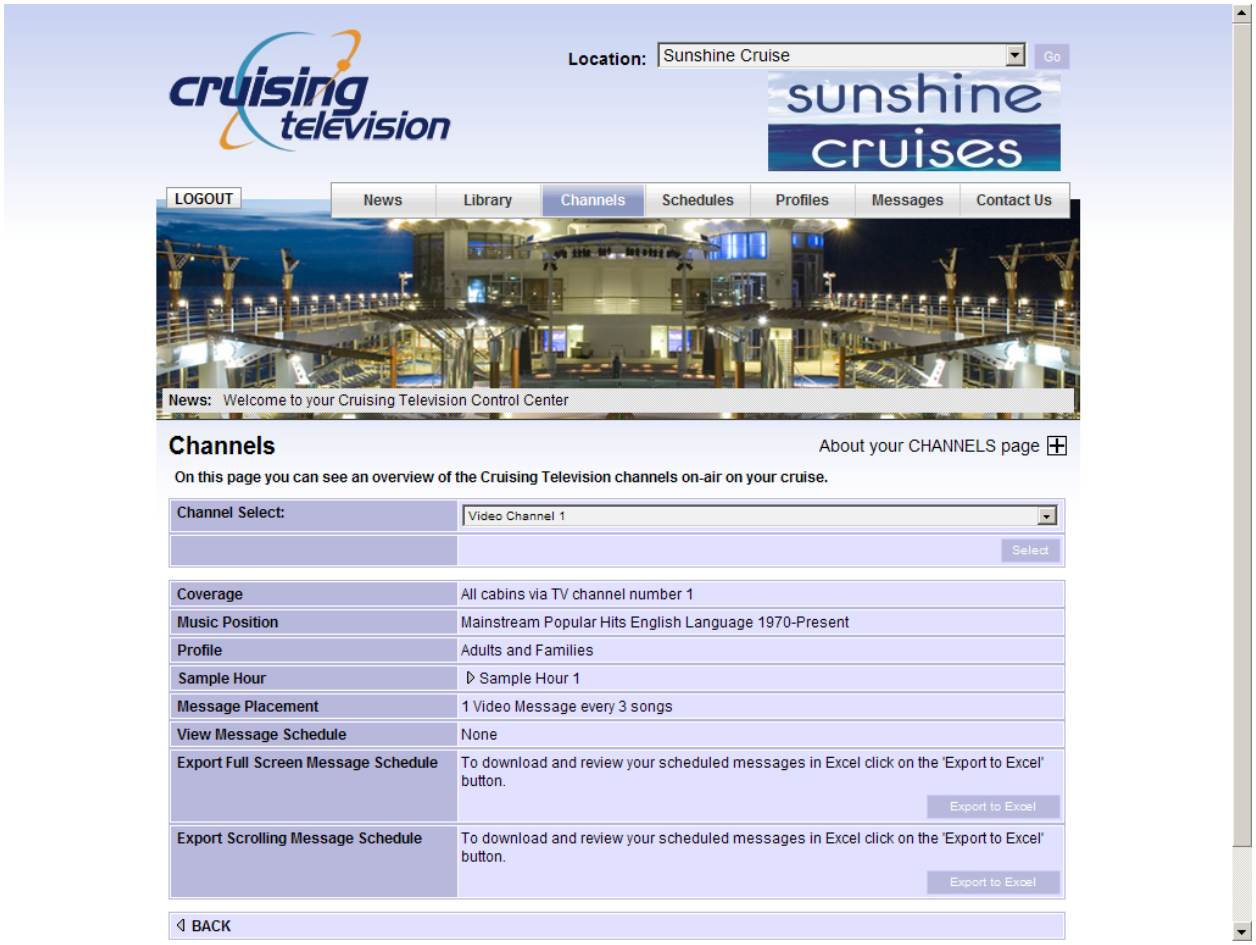
CHANNELS SELECT PAGE

Select your desired channel



CHANNELS VIEW PAGE

Here you can see the channel breakdown



SCHEDULES INFORMATION

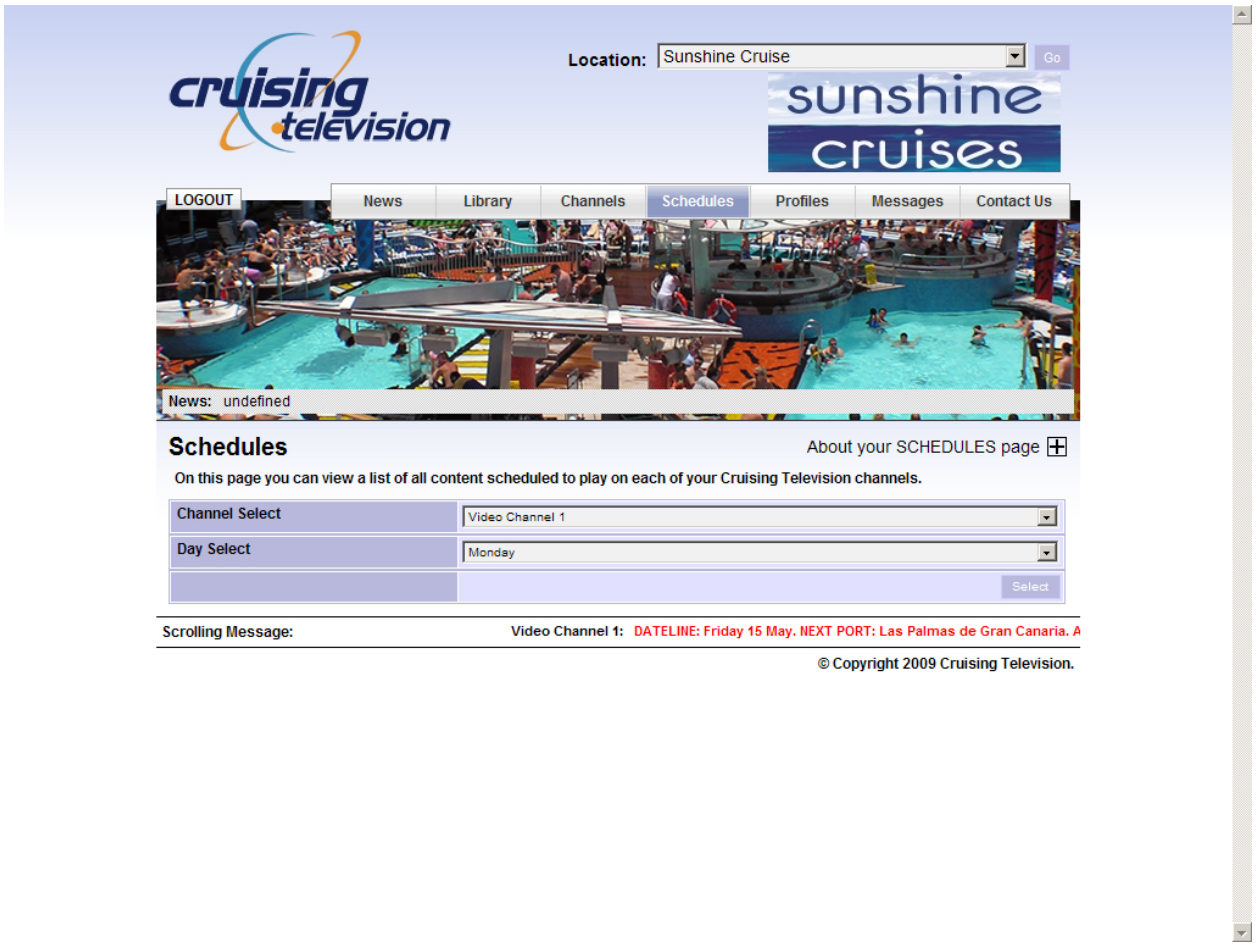
This area allows you to view all the audio/video messages scheduled to play on your channels on a day by day basis.

First, select a channel from the drop down list.

Then, select the day you wish to view.

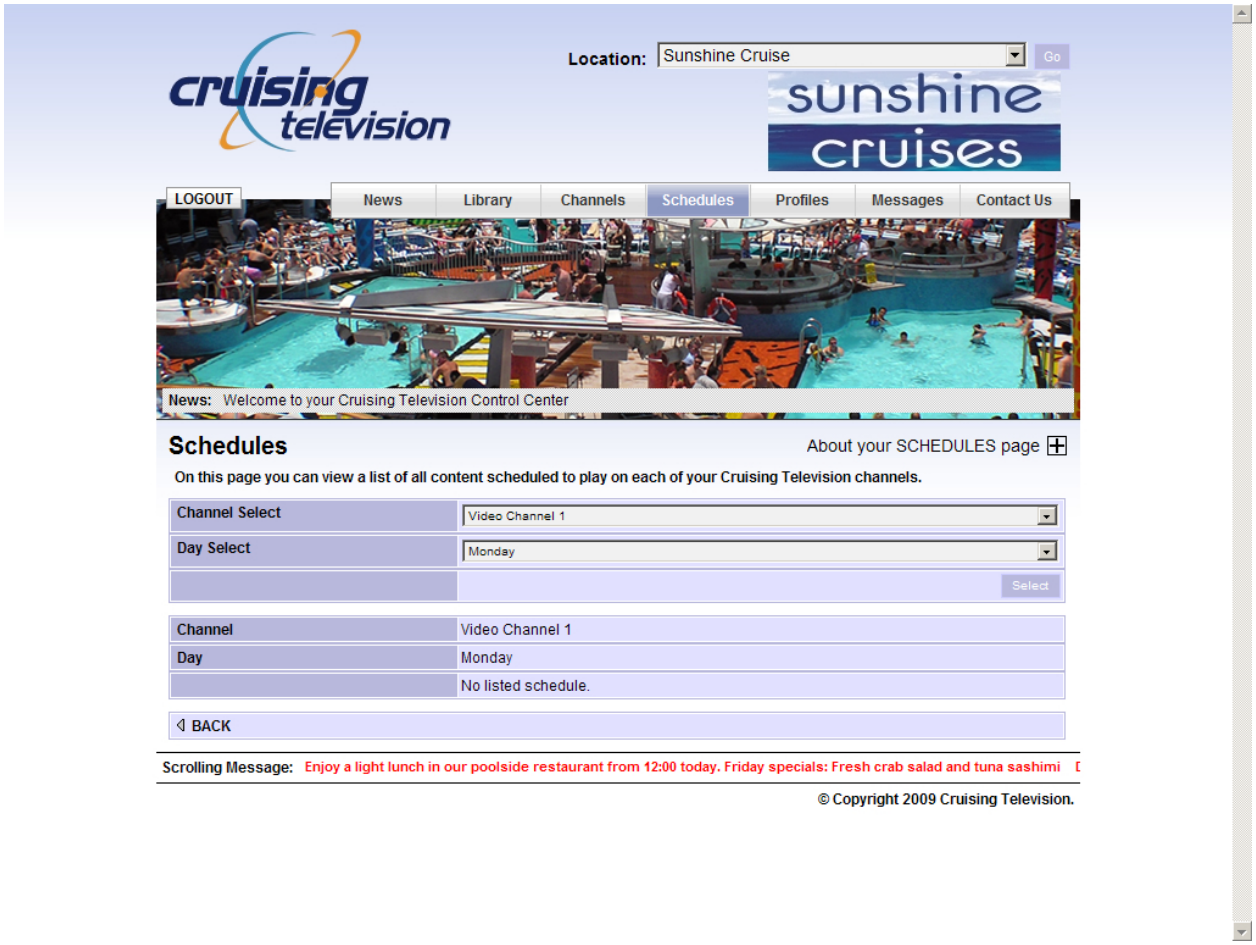
The resulting list shows all the audio/video messages which are scheduled to play on that channel on that day.

On this page you can view a list of all content scheduled to play on each of your Cruising Television channels.



SCHEDULE VIEW PAGE

Here you can see the schedule breakdown

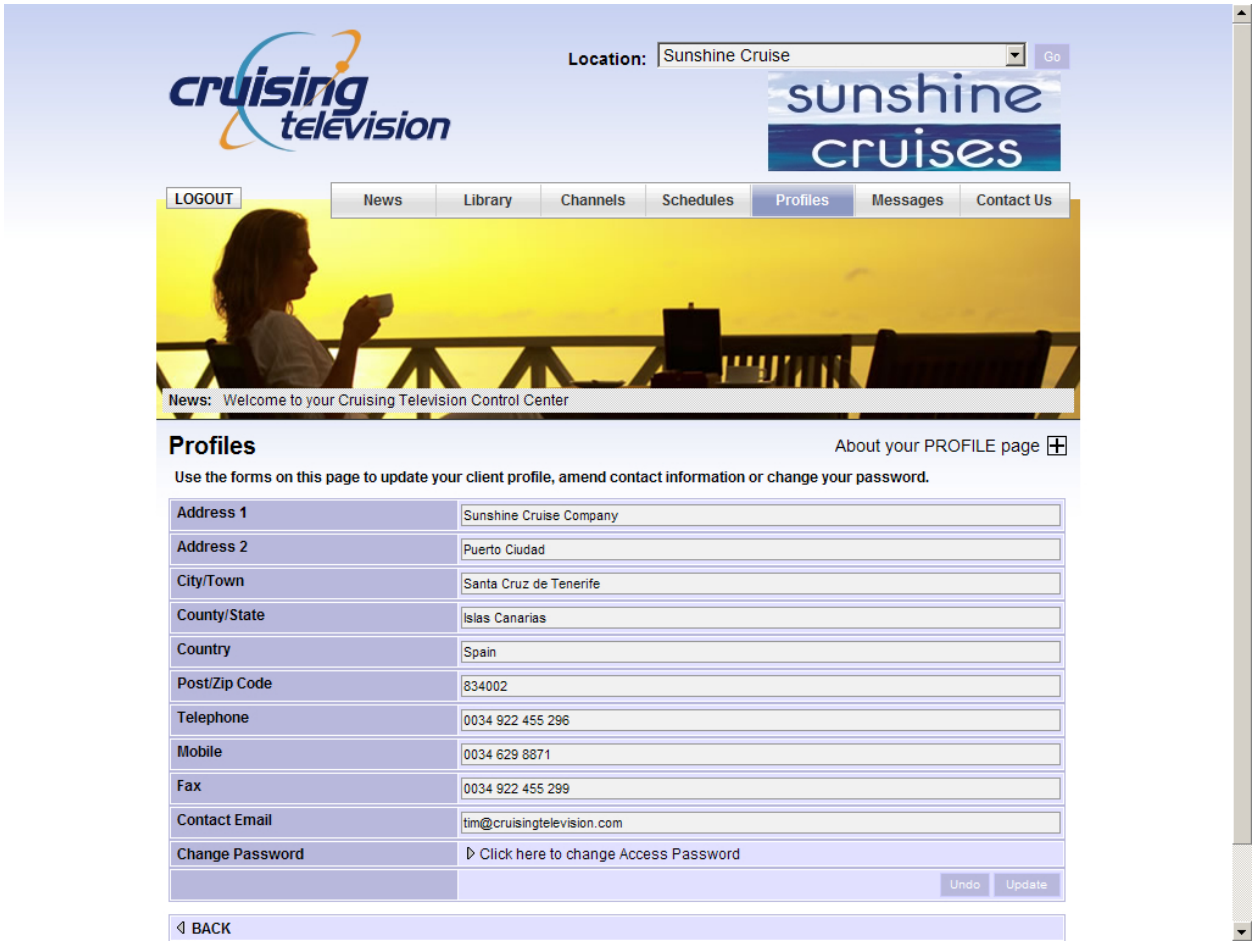


PROFILES

This area contains your client information - address, telephone, email, etc - which you may amend or update to ensure we have the most current and accurate contact details on our records.

You may also change the password used to access your area of the site.

Use the forms on this page to update your client profile, amend contact information or change your password.



MESSAGES SELECT

This area allows you to create, edit and schedule the DYNAMIC IMAGES and SCROLLING TEXT which appear on your video channels.

First, choose from;

FULL SCREEN MESSAGES:

These are still images (pictures and text) which display across the entire screen when activated.

SCROLLING MESSAGES:

These are text messages which scroll across the bottom of the screen when activated.

Here you can create and schedule your own messages to appear on screen.

CREATE - FULL SCREEN MESSAGE INFORMATION

Full Screen Messages are created using pre-designed templates to ensure the design and layout of your finished message is attractive and legible when displayed on screen in your resort.

First, select the template that has the layout that best suits the information you wish to include in your Full Screen Message.

To see examples of each template, click on the thumbnail for a large preview.

Once you have decided on a template to use as the basis of your Full Screen Message, highlight its USE TEMPLATE button and click SELECT FULL SCREEN MESSAGE TEMPLATE

You should then fill-in the following fields;

DISPLAY NAME:
The title you wish to give your Full Screen Message. Use a clear and descriptive name that will be easy to reference when you come to schedule this Full Screen Message.

BACKGROUND COLOUR:
Select the colour of the background on which you wish to create your text.

FONT COLOUR:
Select the colour of the text that will appear on your Full Screen Message.

MAIN HEADING:
Type in the text you wish to see as the primary heading of your Full Screen Message.

SUB HEADING:
Type in the text you wish to see as the secondary heading of your Full Screen Message.

BODY TEXT:
Type in the text you wish to see as the body of your Full Screen Message.

You can change the font, font size and position of the body text for your Full Screen Message using the standard WORD tools where available. The size and placement of main headings and sub headings are fixed according to the template.

Once you have filled-in all the above fields, click CREATE FULL SCREEN MESSAGE to continue. NOTE, you can always return to this page to amend text or make font or colour changes before activating your Full Screen Message.

Here you can use our simple templates to create still images, with your text and pictures, which will appear on screen at scheduled intervals.

CREATE A FULL SCREEN MESSAGE SELECT PAGE

Select a full screen message

EDIT - FULL SCREEN MESSAGE INFORMATION

Here you may add pictures to your text and finish the design process of your FULL SCREEN MESSAGE.

Your newly-created message is listed on a drop-down menu at the top of this page. This menu lists all Full Screen Messages that have been created for your resort and allows direct access to edit each one.

Underneath, for reference, you can see the name of the Template that you used and the Display Name you gave to your message. You can change this Display Name if necessary and save the change by clicking UPDATE FULL SCREEN MESSAGE.

A preview of how your Full Screen Message looks is available by clicking the link to the left of PREVIEW.

In the CONTENT area, the text, fonts and colours you chose are shown. Again, these can be changed on this page and updated by clicking UPDATE FULL SCREEN MESSAGE CONTENT.

To add picture(s) to your Full Screen Message, you must first delete the default pictures on the template.

Click on the dustbin icon next to ARTICLE IMAGE and accept the deletion.

Then use the EXAMINE option to locate the picture you wish to add to your Full Screen Message. Your picture will be automatically resized to fit the template however, you should try to keep picture dimensions consistent with those of the template to avoid distortion of the final image.

Once your picture(s) have been added, view a preview of your Full Screen Message and return to the above stages if further editing is required.

Here you can use our simple templates to create still images, with your text and pictures, which will appear on screen at scheduled intervals.

SCHEDULE - FULL SCREEN MESSAGE

Your video channels are set to display a Full Screen Message four times per hour with each message remaining on screen for two minutes.

First, select the video channel on which you wish your message to display. Choose Video Channel 1 or Video Channel 2 from the drop-down menu.

Then select the day on which you wish your Full Screen Message to appear.

On each day, you must set a DEFAULT message. This is the Full Screen Message that will display on screen that day when no other message has been scheduled.

To make specific Full Screen Messages display at specific times, select the message from the drop-down menu in the ADD A MESSAGE section at the bottom of the page.

Then select the time range in which you require that message to display and click ADD MESSAGE. This message will then be displayed on screen each time the selected channel shows a Full Screen Message during the set time range on this day.

You can add as many time ranges as required, but the total must not exceed twenty-four hours in one day and time ranges cannot overlap.

Choose the times and days that you want your Full-Screen Messages to appear on screen.

CREATE – SCROLLING MESSAGE

Use this area to create a new text message that you can later schedule to appear on the days/times you require.

First, give the Scrolling Message a name in the MESSAGE NAME filed.

Try to use a descriptive and clear title to help when scheduling the message.

Then write the text in the MESSAGE CONTENT field.

There is no limit to the number of characters in your message, but to make it easy for guests to read and follow the text on screen it is advisable to keep your Scrolling Message concise and brief.

To save your message, ready to be scheduled, click CREATE SCROLLING MESSAGE.

SCHEDULE – SCROLLING MESSAGE

To set the times/days on which you wish to display your Scrolling Messages and the video channels on which you wish them to appear, select SCHEDULE MESSAGE from the main SCROLLING MESSAGES page.

First, select the video channel on which you wish your message to display. Choose Video Channel 1 or Video Channel 2 from the drop-down menu.

Then select the day on which you wish your Scrolling Message to appear.

Your video channels will display all the Scrolling Messages, one by one in rotation, which are active within the current time range on any day.

By default, there are time ranges set for each day;

0:00 to 1:00

1:00 to 2:00

3:00 to 4:00

5:00 to 6:00 etc

To make specific Scrolling Messages active within a time range, select the message from the drop-down menu in the ADD MESSAGE TO TIME RANGE section.

Then select the time range in which you require that message to display and click ADD MESSAGE.

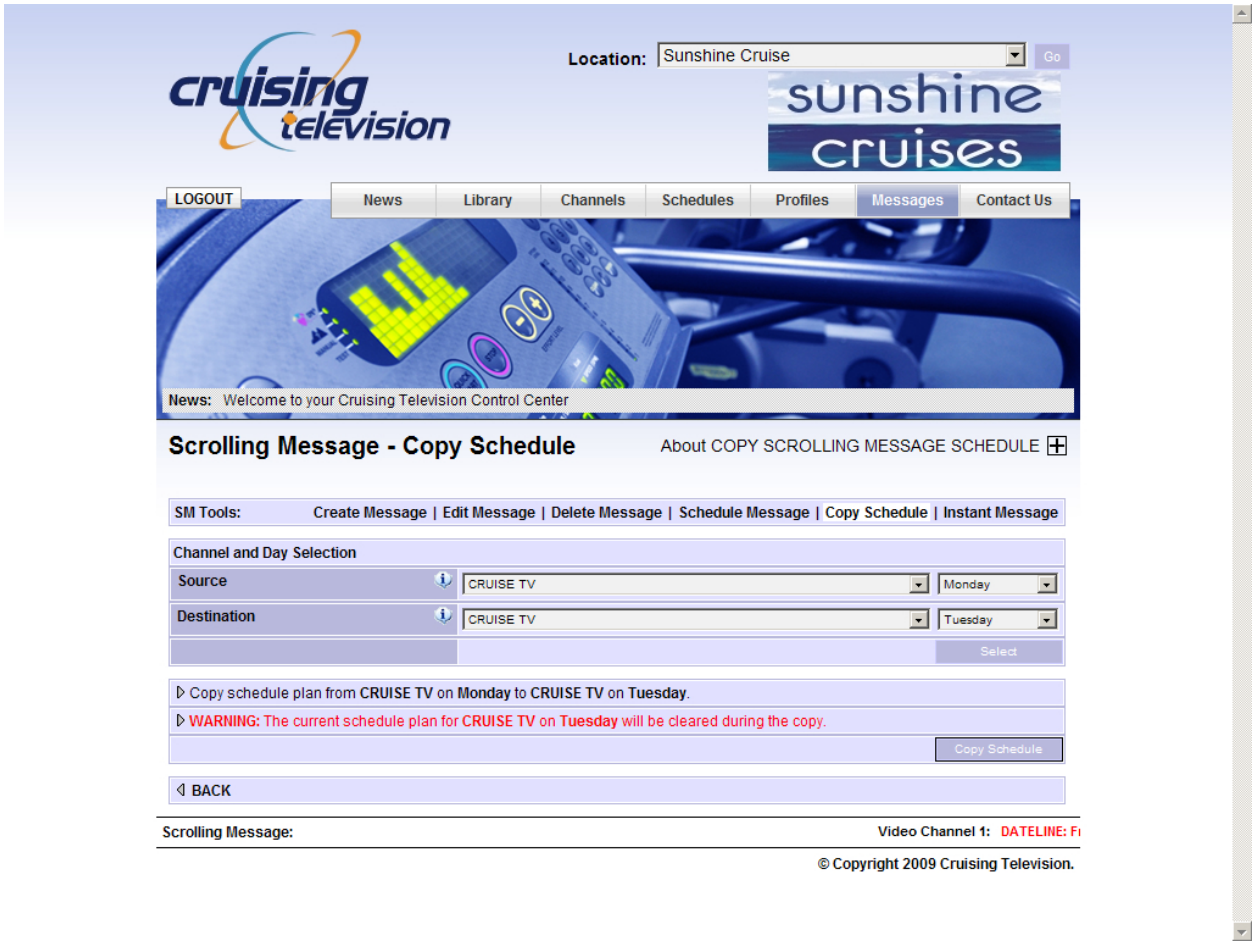
COPY SCHEDULE – SCROLLING MESSAGE

Use this tool to copy a day's schedule that you have created to another day and/or another channel. First select the schedule you wish to copy by choosing a channel and day from the SOURCE drop down menus, then select the channel and day to which you wish to copy your schedule using the DESTINATION drop down menus.



INSTANT MESSAGE – SCROLLING MESSAGE

To compose a Scrolling Text Message for immediate display, first, select the video channel on which you wish the Instant Scrolling Message to appear.

You will then be presented with ten Instant Message fields.

You may write up to ten messages, all of which will be displayed on screen within fifteen minutes of activation.

To activate each individual message, tick the box to the left marked SHOW and click on UPDATE INSTANT MESSAGES at the bottom of the page.

Instant Messages will display on screen, in rotation with existing scheduled messages, until you un-tick the SHOW box or delete the message from this page.

Need to display a scrolling text message on screen immediately? Compose your messages here and tick SHOW to instantly display your text on screen without creating a day and time schedule.
